

## HCIA-Cloud Service V3.0 Change Instructions

Version	Date	Instruction
V2.2	2020/10/31	Enable V2.2 training materials, lab guidebooks and exam questions
V3.0	2021/10/30	Enable V3.0 training materials, lab guidebooks and exam questions V3.0 was released on October 30, 2019, and V2.0 will become unavailable from April 30, 2022. The old and new versions coexist for 6 months.

This document is applicable to the version refreshed certification product. It is used to compare the new and old version of the training materials, lab manuals and detailed changes of the test. It is necessary to specify the contents of the addition, deletion or optimization of the knowledge points and their proportions.

### 1. Training material change instructions

Chapter	V2.2	V3.0	Change Instructions
Cloud Computing Basics	0%	13%	Added basic cloud computing knowledge and basic cloud computing technical knowledge.
HUAWEI CLOUD Overview	12%	11%	Optimized the introduction to HUAWEI CLOUD and added the introduction to QingTian and Alkaid.
Compute Cloud Services	20%	20%	Optimized the content of computing cloud services.
Network Cloud Services	20%	15%	Deleted the details about Direct Connect and VPC peering connections. Optimize other network cloud services.
Storage Cloud Services	16%	14%	Delete the cloud backup service. Optimize other storage cloud services.
Database, Security, CDN, and EI Services	16%	16%	Optimize the database service content. Optimize cloud security services. Optimize the CDN service content. Optimized the EI service content.
HUAWEI CLOUD O&M Basics	16%	11%	Optimize basic cloud O&M services.

### 2. Lab Guides change instructions

HCIP-AI-EI Developer V2.0 Lab Guides

Chapter	V2.2	V3.0	Change Instructions
Getting Started with HUAWEI CLOUD	0%	10%	Added how to get started with HUAWEI CLOUD.
Compute Services	17%	18%	Optimized computing service experiment; Deleted basic operations for containers.
Networking Services	17%	18%	Optimized network service experiments.
Storage Services	17%	18%	Optimized storage service experiments. Delete the cloud backup experiment.
O&M Services	17%	16%	Optimized cloud O&M service experiments.
Database Service	17%	0%	Delete the database service experiment.
Comprehensive Exercise	15%	20%	Optimize scenario-based comprehensive practice.

### 3. Test content change instructions

Chapter	V2.2	Chapter	V3.0	Change Instructions
N/A	0%	1. Cloud Computing Basics	14%	Added the basic knowledge of cloud computing and basic technical knowledge of cloud computing.
1. Cloud Service Concept and Value and HUAWEI CLOUD Architecture	5.5%	2. HUAWEI CLOUD Overview	7%	Optimized the introduction to HUAWEI CLOUD.
2. Compute Cloud Services	18.5%	3. Compute Cloud Services	21%	Optimized the content of compute cloud services and added the introduction to computing services such as cloud mobile phones.
4. Network Cloud Services	19.8%	4. Network Cloud Services	21%	Deleted the details about Direct Connect and VPC peering connections. Added the NAT gateway introduction and optimized other network cloud services.
3. Storage Cloud Services	18.5%	5. Storage Cloud Services	18%	Delete the cloud backup service. Optimize other storage cloud services.

6. HUAWEI-CLOUD-Relational Database Services 7. HUAWEI CLOUD-Security Services 8. HUAWEI CLOUD CDN and Video Services 9. Innovative HUAWEI CLOUD Services	29.7%	6. Database, Security, CDN, and EI Services	10%	Optimize the database service content. Optimize cloud security services. Optimize the CDN service content. Optimized the EI service content.
5. Management and Deployment Services	8%	7. HUAWEI CLOUD O&M Basics	9%	Optimized basic cloud O&M services.
